

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sores in the stomach much like garbage sores in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea. He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

LEADER WANTS BRING RESULTS

JENNINGS HITS EVANGELISTIC TRAIL HARD

FORMER BANDIT SAYS WILL FIGHT BOOZE; SAVE THE WORLD FROM HELL

Al Jennings, the ex-outlaw, is going to hit the trail. He's going to hit the trail from California to New York, preaching the gospel to every creature.

News to this effect reached here today from California, where Jennings was converted and baptized. Following his conversion by Dr. Troy of Glendale, Cal., Jennings began a series of whirlwind revival services in that city.

A Los Angeles newspaper printed this story:

"Preaching the gospel, Jennings will hit the trail from Glendale to New York, via Los Angeles, where he probably will hold revival meetings soon."

"Cut-Sundaying Billy Sunday," the converted outlaw declared that he is "going after whiskey and to save the world from hell."

"Now that I am under the great banner of all," continued Jennings,

Instant Relief For Aching, Burning and Itchy Feet. Corns, Calluses, Bunions, use two spoonfuls of Cal-o-cide in foot bath. Package 25c, at any drug store.

For all Foot Troubles

Children Cry FOR FLETCHER'S CASTORIA

This is a remedy that every family should be provided with, and especially during the summer months. Think of the pain and suffering that must be endured when medicine must be sent for or before relief can be obtained. This remedy is thoroughly reliable. Ask anyone who has used it. Obtainable everywhere.

Sun Gold for economy. The best is always the cheapest.

BRITISH ARE GAINING IN THE TURKISH WAR

OFFICIAL REPORT FROM GEN. NIXON TELLS OF CAPTURE OF AMARA

London, June 8.—The following official communication was issued today:

"The following further information has been received from General Sir John E. Nixon regarding the operations on the Tigris (Asian Turkey): General Townshend, accompanied by Captain Nunn and Sir Percy Cox and a small gunboat flotilla, received the surrender of the Governor of Amara, together with some thirty officers and about 700 soldiers, on the 2nd of June.

"Amara is now occupied by us in force. The troops captured comprised advance guard Turkish forces retreating before General George F. Gorringe's column, which is pursuing the Turkish forces in their retreat from Persian territory. The main body following was seen to disperse in the marshes.

"Our total captures up to date, including the above, amount to eighty officers and 2,900 men and seven field guns, six naval guns from the gunboat Marmaris, twelve large steel barges, one large river steamer, three small steamers and a considerable number of rifles and ammunition of all kinds. Further surrenders are expected.

"Of six Germans with the Turks, three were taken prisoners, two were killed by marsh Arabs and the fate of the sixth is doubtful."

"I therefore ask you to accept my resignation as privy councillor and request that my baronetcy be revoked."

At the death of his father, Gustavus Speyer, Mr. Speyer was a member of the three great Speyer firms, Speyer Eros, London; Speyer & Co., New York; and I. Speyer-Elliasen, Frankfurt-on-Main. He resigned his active participation in the New York branch last year and discontinued his active connection with the Frankfurt-on-Main branch in 1887, when he assumed control of the London firm.

LASSEN PEAK IS DANGEROUS VOLCANO NOW

OFFICIAL SURVEY IS BEING MADE BY GOVERNMENT OFFICIALS OF MOUNTAIN

Washington, D. C., June 7.—Mt. Lassen, California, whose violent eruption of May 19 places it in the first rank of volcanoes now dangerously active, has become the subject of an informal co-operative study by the geological survey and the forest service. At the request of the survey, a telegram has been sent from Washington instructing the officers of the Lassen national forest, in which the peak stands, to continue observations of the volcano's activity and keep a record to be used as a basis for a scientific investigation by J. S. Diller, a government geologist, who is expected at Lassen early in July.

The observations are being made by forest rangers at the scene and from a fire lookout tower on Brokeoff mountain a few miles north of the crater, where the forest service last year kept watch on the numerous eruptions which occurred from May to September.

It is not known whether a cloud-burst started the last eruption by precipitating rain down upon the molten lava in the crater, or whether melting of the snow on the peak, with consequent flowing of water into the crater, caused the accumulation of steam which blew a river of mud out of the mountain. Mr. Diller, who made a study of the volcano last year, said that he inclined toward the melted snow theory, dating that his bright glow reported as appearing on the clouds of smoke and steam over the crater is a reflection of the red hot matter uncovered by the eruption, indicating that the volcano is in a more or less dangerous mood.

The river of mud which was shot out of the north side of the crater and down Hat creek has damaged government and private property, says a wire to the forest service from San Francisco, destroying bridges which were necessary to permit the entrance of live stock that are grazed on the forest range during the summer. Some 12,000 cattle and 30,000 sheep are grazed on the Lassen forest every year.

Mt. Lassen is regarded as exceptionally interesting from a scientific viewpoint, according to the geological survey, inasmuch as it is the only active volcano in the United States proper, is very accessible to observers, and appears to be full of dangerous possibilities. There is much that is not known about volcanoes, and Lassen is expected by geologists to furnish a considerable addition to existing information on the subject.

Children that are affected by worms are pale and sickly and liable to contract some fatal disease. WHITE'S CREAM VERMIFUGE expels worms promptly and puts the child on the road to health. Price 25c per bottle. Sold by Owl Drug Store.

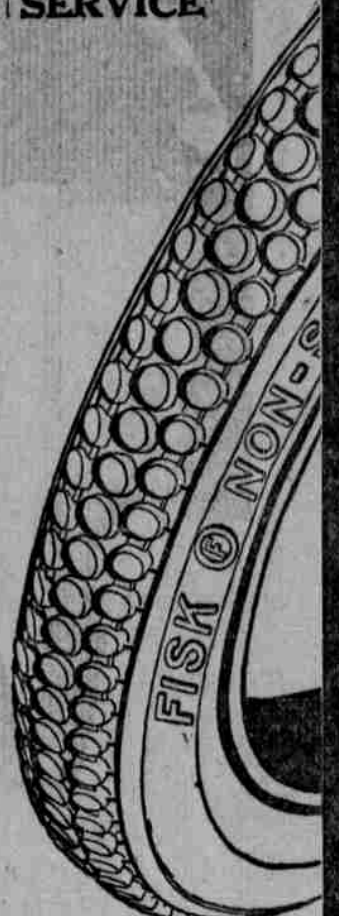

THE "MONTH OF BATTLES"

(From Washington Post) ... The month of June is frequently called the "month of battles." It might with just as much propriety be designated the "month of battles." In this month have been fought some of the most memorable and epoch-making battles in history. Among these were Naseby, Bunker Hill, Marengo and Waterloo, and the present month of June may be pregnant with the most stupendous battle ever fought in history and having the most far-reaching results.

In the following list will be found the names of some of the most important engagements that have been fought in this month:

- June 1, 1794—Lord Howe defeated and almost destroyed the French fleet.
- June 4, 1813—Battle between the Shannon and the Chesapeake.
- June 2, 1793—The reign of terror began.
- June 3, 1653—Admiral Blake's decisive defeat of Van Tromp.
- June 3, 1898—Hobson sank the Merimac in Santiago harbor.
- June 4, 1796—Kleber defeated the Austrians at Altenkirchen.
- June 6, 1862—Capture of Memphis, Tenn.
- June 7, 1855—Capture of Mamelon earthworks at Sebastopol by the French.

AT LOW PRICES WITH FISK SERVICE

FISK TIRES

Emphatically! The Best Tire Proposition On The Market

June 30, 1864—Battle of Petersburg.

A regular morning operation of the bowels puts you in fine shape for the day's work. If you miss it you feel uncomfortable and cannot put vim into your movements. For all bowel irregularities HERBINE is the remedy. It purifies, strengthens and regulates. Price 50c. Sold by Owl Drug Store.

COMMUNICATIONS.

(The Leader is not responsible for contributions appearing under this heading. Anonymous communications will not be printed. The real name of the contributor must be given.)

To Help the Fallen.

Editor Leader: I am opening up a scriptural church pulpit for the purpose of teaching the gospel, through the mails, to all fallen women, criminals and outcasts from society. These people are not welcome to, nor a home within the church as constituted in our social life. The Christ came to give hope, cheer and life to those afflicted with sin, and outcast from society. We shall endeavor to

preach the Gospel—teach the message of life that Jesus preached, through the mails, to all who will correspond with us. The fallen woman can tell us her story, the ex-convict and the outcast his secret, and it will be kept sacred and we will endeavor to give them comfort and consolation, and point them to a higher and better life, through the teachings of the Gospel—the life of the Christ. There will be no charges for our services. All who desire comfort and consolation of the Christ may write us enclosing 2 cents for a reply, we will answer them promptly. We want to be the pastor of every fallen woman, ex-convict and every outcast from society, and of every troubled soul that feels that it is friendless, and tell her of a better life and of the Christ. They can tell us their story, their troubles, their afflictions, and their clouds of sorrow will be welcome and we will endeavor to help them. We will also be pleased to give free to boys, and young ladies, and to parents who have sons and daughters, and to all others who read our advice as to the social evil which is destroying the moral and spiritual life of the youth of the country. Will you please publish this letter, that those who need us may get into communication with us? Thanking you in advance, we are cordially yours,—Sidney C. Tapp.

P. S.—I am not a minister, but a criminal lawyer who saw and studied all phases of sin and crime, and retired from the law to do this work.

What a Billion Means.

Editor Leader: A recent paragraph in The Leader, recalls some interesting remarks by the late Sir Henry Bessemer on what he described as the "Dissection of a Billion." He said the results of various simple calculations, all tending to prove our inability to comprehend such a number as a "million of millions."

As an illustration of his method (and one literally to hand), take as the unit the sheet of paper on which these lines are written. If one billion of such flat sheets are superimposed, on one another and pressed together like a book (having 333 sheets to the inch), what would be the thickness of the book? I have heard the reply given as "quite a yard—possibly four feet."

To one who knew the correct answer a smile was, perhaps, permissible, for the thickness of the book would be 47,000 miles!

This is startling, but, in any case, not so amazing as the following illustration of time. Imagine a clock starting simultaneously with the Christian era and going steadily ever since; how many billions of seconds will this clock have recorded in 1915 years? An estimate of one billion does not seem rash but it is very far in excess of the actuality. If we suggest half a quarter, or even an eighth of a billion we are still too generous, seeing that 1915 years represents less than a sixteenth part of one billion seconds of time!
